

CARES Permit Project

Child Development Permit Checklist and Application for Employed Early Care and Education Providers Only

August 2009

Project Overview

The CARES Permit Project is funded by First 5 California. The Child Development Training Consortium is implementing the project throughout California. This project will continue through October 2009, or until the funding is expended, whichever comes first.

The goal of this project is to support the professional development of early care and education staff by paying the permit application and fingerprint (Live Scan) processing fees required to obtain a Child Development Permit from the Commission on Teacher Credentialing. The six Child Development Permit levels are Assistant, Associate Teacher, Teacher, Master Teacher, Site Supervisor, and Program Director.

This project will pay the application and fingerprint processing fees for first-time, renewal and upgraded Child Development Permits. Priority will be given to individuals who are employed in school readiness/priority zones with an API score of 1 to 5 and are participating in a county CARES (Comprehensive Approach to Raising Educational Standards) program.

IMPORTANT: Effective September 1, 2008, the Commission on Teacher Credentialing (Commission) will only provide credentials, certificates, and permits through an online view and print process. The Commission will no longer print and mail this document; it will be available online to colleges, universities, employers and the document holder within 48 hours of issuance. At that time, a document may be printed from the Commission's web site.
