Cuyamaca College's Commitment to Participative Governance

Cuyamaca College takes great pride in fostering a collegial and participatory approach to the planning and decision-making processes of the college. Clearly defined organizational and governance structures have been instituted at Cuyamaca College to ensure optimal participation for all constituency groups. The Organizational and Governance Structures Handbook provides an overview of the college's administrative structures and its various councils, committees and sub-units, including their memberships, functions, and reporting responsibilities. The college created this Handbook to promote understanding and encourage participation on behalf of all members of the college community to serve on its various committees and councils.

Cuyamaca College's Strategic Plan: 2016-2022, sets forth four Key Priorities for the institution:

- **Accelerated Basic Skills in Math, English, and ESL**
- **Guided Student Pathways**
- **Student Validation and Engagement**
- **Organizational Health**

The members of the college community are committed to achieving the objectives of these Key Priorities through a logical and efficient system of organizational and shared governance structures which provide for respectful dialogue, constructive collaboration, successful planning and effective decision-making.

The institutional structures outlined in this Handbook will ensure the success of our students and the continued advancement of Cuyamaca College. It is The Cuyamaca Way!

Introduction

Participative decision-making at Cuyamaca College is achieved in the spirit of cooperation, collaboration, and collegiality. It promotes the mission, vision and values of the college and ensures their achievement through the planning process, initiatives, policies and procedures.

The purpose of the Cuyamaca College governance structure is to provide each constituency group the opportunity to participate in planning processes, and initiatives and the development of college policies and procedures through their representatives. Functionally, this is organized and carried out through a system of committees, councils, and task forces created to formalize collegiality, facilitate communication, solve issues at the levels closest to the individuals affected, and develop effective plans and processes. These structures provide opportunities for all interests to be considered and a resolution to be reached.

The final authority for governance at Cuyamaca College is the Governing Board. The Governing Board delegates authority to the President through the District Chancellor. The President and all constituency groups are committed to a functional and effective participative decision-making process.

General Principles:

1. Pervading all decision-making must be the recognition that the college exists to educate its students.
2. Participative decision-making is a method of collegial interaction in which faculty, staff, and students participate in the decision-making process and in which recommendations are made to the college President.
3. Through active participation and collegial interaction by all members, mutual agreement is the goal.
4. The most effective means of developing policy and procedures is to provide an opportunity for involvement by the constituency groups affected by the policy and procedures.
5. In academic and professional matters, as defined by AB1725, the President will rely primarily on the advice and judgment of the Academic Senate.
6. All governance groups have a vested interest in ensuring that Cuyamaca College fulfills the mission given to it by the legislature, State Board of Governors, and the Governing Board of the Grossmont-Cuyamaca Community College District.
7. Members have the responsibility of keeping their respective groups informed of the proceedings and recommendations of governance groups.
8. Unless otherwise stated, a quorum has been defined as two-thirds of the total voting members.

(It should be noted, that during periods of interim administrative vacancies, the administrative membership on respective councils and committees will not be altered; instead, an individual will be appointed to represent the administrative vacancy.)

Roles of the Participants in College Governance

Members of the governance groups of the college are determined by position held or through selection by constituency groups.

Governing Board

The **Governing Board**, with appropriate input from all constituencies through a participative decision-making governance model, establishes District goals, adopts policies, authorizes the annual budget, awards bids and contracts, appoints and terminates personnel, and serves as an avenue of final appeal within the District for issues unresolved through normal processes of the college governance model.

College President

The **College President** organizes the college environment to ensure effective communication channels and organizational and governance structures for achieving participation from all constituencies in the decision-making processes appropriate to shared governance. The president is responsible for presenting the college perspective/recommendations based on these processes. The president encourages and monitors the participation of all constituencies in their appropriate college governance roles.

Administrators

Administrators serve on committees, councils and task forces as initiators, facilitators, resource persons, and to provide staff support. Administrative responsibilities also include implementation and enforcement of policies and procedures approved through shared governance bodies and communication of same to operational staff in the administrator's area(s) of purview and to liaison with other organizational units as appropriate. Administrative appointments on shared governance bodies are made by the college president.

Academic Senate

The **Academic Senate** represents the faculty of Cuyamaca College. The Senate expresses the view of the faculty through a vote of the Senate. At the Senate's discretion, the Senate may choose to delegate its responsibility to individual faculty members for limited duration and purpose.

Per AB1725, the Governing Board or their designee consults collegially with the Academic Senate on academic and professional matters. As appropriate, the Senate adopts, approves, endorses academic and professional matters which include: (1) Curriculum including established prerequisites and placing courses within disciplines; (2) degree and certificate requirements; (3) grading policies; (4) educational program development; (5) standards or policies regarding student preparation and success; (6) district and college governance structures as related to faculty roles; (7) faculty roles in accreditation process, including self-study and annual reports; (8) policies for faculty professional development activities; (9) processes for program review; (10) processes for institutional plans and budget development; and (11) other academic and professional matters as mutually agreed upon between the Governing Board and Academic Senate.

All faculty appointments to college governance bodies are made by the Academic Senate. Faculty appointments to standing committees and councils are for two-year terms of service unless otherwise noted in the committee/council charge and composition; additional terms are subject to senate approval. Whenever possible, the senate will stagger new appointments to ensure continuity on committees and councils. Unless explicitly authorized by vote of the Senate, faculty members serving on committees do not speak or decide for the Senate and are obligated to communicate regularly to the Senate on the committee's activities. Appointees have the responsibility of keeping their respective groups informed of the proceedings. Appointees are expected to attend meetings and to contribute as a part of their professional responsibilities. The Senate will inform the appropriate administrator of the role the faculty representative plays on the committee.

Classified Senate and California School Employees Association

The **Classified Senate** and the **California School Employees Association (CSEA)** as defined in the Memorandum of Understanding with the Grossmont-Cuyamaca Community College District, dated 5/16/02 represent the classified staff in participative decision-making. The classified staff representative is the Cuyamaca College Vice President of the Grossmont-Cuyamaca Community College District Classified Senate and the CSEA Cuyamaca College representative is selected by the Grossmont-Cuyamaca Community College District CSEA President. Both groups represent the classified staff in promoting the participative decision-making process which develops and formulates policy and practice related, but not limited to, the following: (1) the selection of administrative staff; (2) in-service education; (3) facilities and services; (4) relations and communication among the various interest groups in the Grossmont-Cuyamaca Community College District; and (5) finance and budget. The practice is to have a representative from both the Classified Senate and CSEA on all college governance committees. The College President ensures that the recommendations and opinions of classified staff are given every reasonable consideration within these structures.

The Associated Students Government of Cuyamaca College

The **Associated Students Government of Cuyamaca College** is the official voice of the Cuyamaca College student body and is responsible for selecting students to serve on shared governance groups. Through representation on college shared governance groups, the Associated Students are able to articulate student perspectives regarding issues, policies, etc., to the Associate Dean of Student Affairs.

Labor Groups

For matters related to compensation and working conditions, employees are represented by the following organizations:

- Faculty—American Federation of Teachers Guild, Local 1931
- Classified Staff—California School Employees Association, Chapter 707
- Administrators—Administrators Association
- Confidential Administrators—meet and confer unit
- Confidential Supervisors/Assistants—meet and confer unit

Responsibilities of All Parties

Whether or not governed by the Brown Act, college governance committee deliberations and votes should be public. In addition to representation afforded to individuals through constituencies, individuals and groups may also be heard in any committee by requesting permission to speak. Written minutes of proceedings will be recorded for all college governance councils and committees.

Committees and Councils

ACCREDITATION STEERING COMMITTEE

Charge

The Accreditation Steering Committee (ASC) develops, coordinates, and implements the process for development of the Institutional Self-Evaluation Report (ISER) in support of accreditation reaffirmation and in preparation for site visits scheduled by the ACCJC. The ASC establishes timelines and oversees the process for completion of the ISER and Quality Focus Essay (QFE), including but not limited to:

- Training and organization of work groups and writing teams for each accreditation standard;
- Gathering of information, documentation, and evidence; and
- Writing and editing the final ISER and QFE documents.

In collaboration with the Institutional Effectiveness Council, the ASC ensures compliance with the accreditation standards and advances a culture of evidence and continuous quality improvement across the College. In order to achieve this, ASC is responsible for the following:

- Facilitating accreditation-related training for the campus community;
- Making recommendations to appropriate campus committees, councils, and departments to ensure that accreditation standards are integrated into college structures and processes;
- Monitoring of actionable improvement plans arising from the self-evaluation process;
- Assessing progress on the QFE; and
- Ensuring any recommendations made by the peer review team are addressed.
