**Support College Mission/Strategic Plan,
Health/Safety/Security Issues,
Growth of department/work area,
Demonstrate need for continuous quality improvement of department/work area**

Provided details::

We have been in ongoing problems trying to get this request completed. This started in 2018. We would like to manage the entire process. We would like permission to talk to DSA, county and city district departments, perform contracts with vendors and contractors, and complete this work with the budget of \$500,000. We believe we can be the project managers and complete this project within the next year. This entire process has been very disappointing and is providing the opposite of equity to our students.
